

Please delete Fig. 1 and Fig. 2 on pages 25 and 26 and attach the figures after the Abstract as Fig. 1 and Fig. 2. Formal drawings are submitted herewith under separate Letter to the Draftsperson. Approval by the Examiner is respectfully requested.

In the Claims:

Please amend claims 1, 6 and 8 as set forth below:

1. (Once Amended) An imaging material comprising a support having disposed thereon:

- B3
- a) at least one image-forming layer, and
 - b) at least one transparent electrically conductive antistatic layer that comprises electronically conductive polymer particles, a neutral-charge conductivity enhancer, and a polymeric binder comprising gelatin or gelatin derivatives.

B4

6. (Twice Amended) The imaging material of claim 1 wherein said antistatic layer comprises electronically conductive polymer particles of a polythiophene present in a cationic form with a polyanion, said polythiophene comprising recurring units defined by the following Formula I wherein n is about 5 to 1000 and wherein R₁ and R₂ are independently hydrogen or a substituted or unsubstituted alkyl group having 1 to 4 carbon atoms, or together form a substituted or unsubstituted group or a substituted or unsubstituted 1,2-cyclohexylene group:

B5

8. (Twice Amended) The imaging material of claim 1 wherein said neutral-charge conductivity enhancer is:

- (A) represented by the following Formula II:
